

Find the hours. *Fix the workflow.*

Most businesses spend 5 to 10 hours a week on tasks that could be automated. The HoursBack Assessment finds exactly where those hours are going - and gives you a plain-English plan to get them back.

HOW IT WORKS

Three steps. 48 hours. Done.

01

The diagnostic session

60 minutes

A focused 60-minute call with us. We map every recurring task in your business, score each one for automation potential, and flag what can change immediately.

02

Your custom report

Delivered within 48 hours

Written in plain English - no jargon. Every recommendation is costed, prioritised, and ready to act on the same day you receive it.

03

Your implementation kit

Tools, prompts and sequences

Your report identifies the tools, prompts, and AI agent opportunities your business needs - each scoped with time impact. Action them yourself, or book the £349 Implementation Kickstart for hands-on support.

WHAT YOU GET

Your Assessment includes

- 60-minute live diagnostic session
- ROI projections using your actual numbers
- 2-4 AI agent opportunities scoped
- 5-day implementation plan
- Recorded video walkthrough of your report
- Full written Assessment report
- Priority automation ranking
- 5+ ready-to-paste prompts for your tools
- Tool recommendations with setup notes
- Check-ins at 7 and 30 days

WHO IS IT FOR?

Built for service businesses

If your business runs on repeating tasks - client onboarding, scheduling, reporting, follow-up, invoicing - and you feel like the admin never ends, this is built for you. No technical knowledge required.

“Splendidly finished. The Account Management Team have had their minds blown. 197 reports done in 60 seconds – would have taken us 10 weeks manually. Genuine game changer.”
